- Battery type: AA size (LR6)
- Number of batteries: 4
- Battery lifetime: 8 hr

Dimensions
- Product dimensions (WxDxH): 224 x 120 x 162 mm
- Packaging dimensions (WxDxH): 240 x 145 x 240 mm
- Product weight: 1.1 kg
- Weight incl. Packaging: 1.33 kg

Highlights

Play and charge via Lightning
Enjoy your favorite music while charging your iPod/iPhone via the new Lightning connector! Just dock your iPhone 5 or the latest iPods directly on the speaker to play your hand-picked tunes in superb sound. It also charges your device while playing, so you don't have to worry about the battery running out.

Dynamic Bass Boost (DBB)

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Neodymium speakers
Neodynium is the best material for producing a strong magnetic field for greater sensitivity in a voice coil, better bass response and a pure balanced sound quality.

AUDIO-IN (3.5mm)

Make one easy connection and enjoy all your music from portable devices and computers. Simply plug your device to the AUDIO-IN (3.5 mm) port on your Philips set. With computers, the connection is typically made from the headset output. Once linked, you can enjoy your entire music collection directly, on a set of superior speakers. Philips simply delivers better sound.
